No aircraft were parked in front of the two closed hangars on the eastern edge of the SCHNEIFALDE(N 53/2 66) airfield. About 40 single-engine low-wing monoplanes with in-line engine and gun firing upward to the rear were parked in front of the three southern hangars. All planes were covered with tarpaulins when the weather was hazy.

[REDACTED]

Comment:

The aircraft described are probably IL-10s. Thus, the occupation of the field by a ground attack unit, presumably in regimental strength, as reported by various sources is confirmed. It is assumed that the two other regiments also assigned to the same ground attack divisions are stationed in LOEDERITZ.
